

Report on contribution to the project “ZaiLib” to delivery #3

What we have done:

1. Methods for renew and for count overdue.
2. Queue for users on some particular document.
3. Realization of outstanding request for users (any user can send request on book if there are no available copies in library) and for librarian (queue will be deleted in such case).
4. Insert new type of patron: Visiting Professor, and add all his special features.
5. Button for renew document in GUI.
6. Button for displaying queue on some particular document in librarian menu (GUI).
7. Automatically sending and deleting after 1 day request if it is your turn to take document.
8. Improve project's GUI (add log out, delete excess windows).

Each member's contribution:

1. Salavat Dinmukhametov #2, 7 (number of points in previous list)
2. Arina Fedorovskaya #1, 3, 4
3. Timur Anufriyev #6
4. Enes Ayan #8, 5
